

CHROMATOGRAPHIC SCIENCE SERIES

VOLUME 89

Handbook of Thin-Layer Chromatography

Third Edition, Revised and Expanded

edited by
Joseph Sherma
Bernard Fried

High praise for Sherma and Fried's editorial collaborations . . .

"...the definitive TLC text that should be present in any analytical library."—*INFORM*

"...**highly interesting**."—*Centro Español de Plásticos*

"...a **vital** asset to anyone interested in TLC, whether from a practical, theoretical, or instrumental stance."—*Analyst*

"...suited to the reader with a general understanding of chromatography....[as well as] the experienced chromatographer who requires **an in-depth and detailed reference source**."—*Analyst*

about the third edition . . .

More than **40** renowned authorities carefully introduce and update chapters on the theory, fundamentals, techniques, and instrumentation of thin-layer chromatography (TLC) and high-performance thin-layer chromatography (HPTLC)—highlighting the latest procedures and applications of TLC to 19 important compound classes.

The only book available with coverage of TLC applications by compound type!

Facilitating industrial adaptation through easy reference, the **Second Edition** supports practical research strategies with extensive tables of data...offers numerous figures that illustrate techniques and chromatograms...and includes a glossary as well as a directory of equipment suppliers.

about the editors . . .

JOSEPH SHERMA is John D. and Frances H. Larkin Professor Emeritus of Chemistry at Lafayette College, Easton, Pennsylvania. The author or coauthor of over 500 scientific publications, Dr. Sherma is coauthor, with Bernard Fried, of *Thin-Layer Chromatography, Fourth Edition* (Marcel Dekker, Inc.). A member of the American Chemical Society, Sigma Xi, and the American Institute of Chemists, among other associations, he is the editor for residues, trace elements, and botanicals for the journal of AOAC International and serves on the editorial advisory boards of the *Journal of Liquid Chromatography & Related Technologies*, the *Journal of Environmental Science and Health (Part B)*, the *Journal of Planar Chromatography-Modern TLC*, and *Acta Chromatographica*. Dr. Sherma received the Ph.D. degree (1958) in analytical chemistry from Rutgers University, New Brunswick, New Jersey.

BERNARD FRIED is Kreider Professor Emeritus of Biology at Lafayette College, Easton, Pennsylvania. The author or coauthor of over 450 scientific publications, including articles, reviews, books, and book chapters, he is coauthor, with Joseph Sherma, of *Thin-Layer Chromatography, Fourth Edition* (Marcel Dekker, Inc.). Dr. Fried is a member of the American Society of Parasitologists, the American Microscopical Society, and the International Society of Chemical Ecology. He also serves on the editorial board of the *Journal of Helminthology*. Dr. Fried received the Ph.D. degree (1961) in zoology from the University of Connecticut, Storrs.

Contents

<i>Preface to the Third Edition</i>	v
<i>Preface to the Second Edition</i>	vii
<i>Preface to the First Edition</i>	ix
<i>Contributors</i>	xv
Part I: Principles and Practice of Thin-Layer Chromatography	
1. Basic TLC Techniques, Materials, and Apparatus <i>Joseph Sherma</i>	1
2. Theory and Mechanism of Thin-Layer Chromatography <i>Teresa Kowalska, Krzysztof Kaczmarski, and Wojciech Prus</i>	47
3. Optimization <i>Claudia Cimpoiu</i>	81
4. Sorbents and Precoated Layers in Thin-Layer Chromatography <i>Fredric M. Rabel</i>	99
5. Instrumental Thin-Layer Chromatography (Planar Chromatography) <i>Eike Reich</i>	135
6. Gradient Development in Thin-Layer Chromatography <i>Władysław Gołkiewicz</i>	153
7. Overpressured Layer Chromatography <i>Emil Mincsovičs, Katalin Ferenczi-Fodor, and Ernő Tyihák</i>	175
8. Detection, Identification, and Documentation <i>Gerda Morlock and Karl-Arthur Kovar</i>	207
9. Thin-Layer Chromatography Coupled with Mass Spectrometry <i>Kenneth L. Busch</i>	239
10. Basic Principles of Optical Quantification in TLC <i>Mirko Prošek and Irena Vovk</i>	277
